

BENEFITS:

- More cost-benefits for everyday use
- Good performance on moderate to low-drain devices

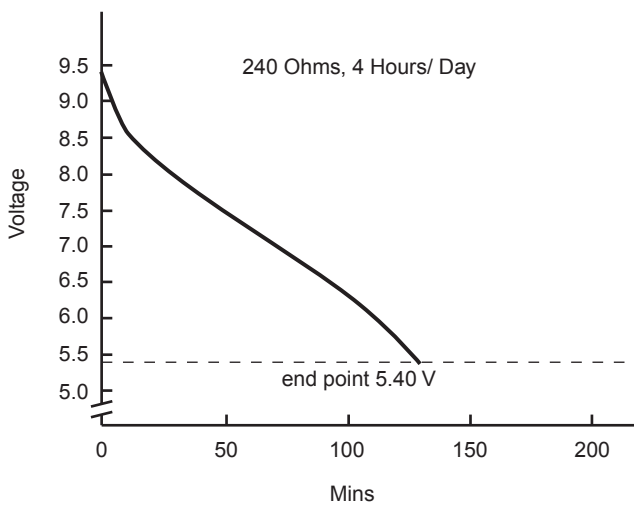

Other Details:

- Ammonium Chloride chemistry
- Average weight: 380g

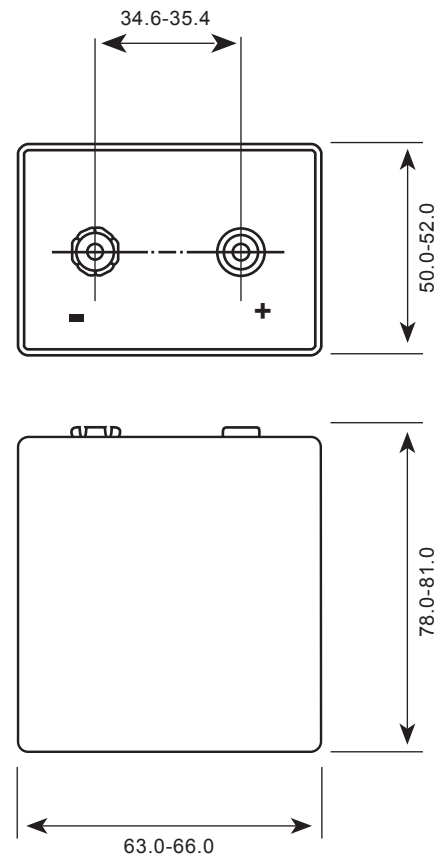

Typical Service Life:

Discharge Resistance	Discharge Condition	End Point Voltage	Service Life
240 ohms	4 Hrs/Day	5.4V	13 Hrs

At 20 ± 2°C and 60 ± 15% relative humidity, within 30 days of manufacture

- GP Supercell Carbon Zinc Battery
- 4.5 Volts

Unit : mm
